Dear Patient,

It is important that you arrive on time to your appointment to meet with the physician. You will be rescheduled if you do not arrive on time.

**Please print out and complete all of this paperwork prior to your appointment and bring it with you. Also bring the following:**

- **All of your pertinent medical records (unless the referring doctor has already faxed them to our office)**
- **MRI, X-Ray or CT-scans films**
- **Picture identification**
- **Health insurance card**
- **All medication prescription bottles you are currently taking.**
- **Come prepared to pay your co-pay or deductible when you check in to our office. You are responsible for the co-pays as required by your insurance company. Copays are collected at check-in before you are seen.**

Please understand that if your paperwork is not complete or if you are not on time for your appointment, you may be rescheduled.

For directions to our office, please visit our website at [painfreenevada.com](http://painfreenevada.com).

If you have any questions, feel free to contact our office at **(702) 316-2281**.

Sincerely,

Innovative Pain Care Center

## **ASSIGNMENT AND RELEASE**

I understand that any and all fees incurred for medical treatment are my total and ultimate responsibility, regardless of any insurance I may have. It is ultimately my responsibility to know the guidelines of my insurance coverage. In the event that my insurance does not provide benefits or provides reduced benefits and/or I do not provide my insurance company needed information in a timely manner, I will be financially responsible to pay up to the agreed upon fee schedule.

I agree to pay for all services rendered. If a collection agency's services are required, I further agree to pay collection agency fees (35%) and interest at the rate of 1.5% monthly or 18% annually until the debt is paid. I further agree to pay for all legal fees, court costs and reasonable attorney fees associated with collecting any outstanding debt. There will be a \$75.00 fee (per incident) added to my bill for redeposit or returned checks.

I, the undersigned, assign directly to **Innovative Pain Care Center**, medical benefits, if any, from my insurance carrier that would otherwise be payable to me for services rendered. I understand that I am financially responsible for all charges whether or not paid by my insurance. I hereby authorize the doctor to release all information necessary to secure the payment of benefits and/or further medical treatments. I authorize the use of this signature on all my insurance submissions whether manual or electronic.

## **PRESCRIPTION MEDICATION AGREEMENT FOR CONTROLLED SUBSTANCE THERAPY FOR PAIN**

Nevada law requires a patient to enter into a "Prescription Medication Agreement" if a controlled substance is to be continued for more than 30 days for treatment of pain. I understand that this agreement will be updated every 365 days, or if there is a change to my treatment plan. I understand that attempting to reduce my pain is my responsibility, and that the treatment of pain with controlled substances carries with it some additional responsibilities that my practitioner has made me aware of. The purpose of this agreement is to help both me and my practitioner comply with the law.

**(Please sign below to indicate your understanding of all parts of this document.)**

- 1. I understand my overall treatment plan and I understand the goals of the treatment of pain, including the appropriate use of a controlled substance.**
  - I have discussed my treatment plan with my practitioner, **Innovative Pain Care Center: Dr. Daniel Burkhead, Dr. Willis Wu, Dr. Ryan West, Michael Scott, PA-C, Neil Jones, PA-C, Kelsee Chang, FNP-C, Tamara Browne, FNP-C**, and I have a good understanding of the overall treatment plan and goals of treatment. My practitioner has discussed possible alternative treatments for my pain that do not include controlled substances and it is our mutual decision that continuation of a controlled substance for more than 30 days may provide some benefit for the treatment of my pain. I may be continued on controlled substance(s); including opioids.
  - I understand that part of the goals of my pain management therapy may likely include attempts to minimize or discontinue the use of controlled substances. There may be various reasons that my practitioner will recommend tapering or discontinuation of a controlled substance. Some of these reasons may include, but are not limited to: a reduction of pain symptoms by other means, the presence or development of side effects, any signs of misuse, abuse, diversion, or addiction, refusal to comply with diagnostic studies or other aspects of the treatment plan, attempts to obtain medication from another provider, use of illicit drugs or other medications that may interact with the controlled substance, or any other reason that my practitioner may deem it in my best interest to reduce or discontinue the controlled substance.
  - I understand how to properly use the controlled substance that is being prescribed, and I agree to take the medication as directed and to not deviate from the parameters of the prescription as written by my practitioner. I will keep the medication safe, secure, and out of the reach of children and I will dispose of unused medication appropriately.
  - I understand that controlled substances can cause certain reactions or side effects that could be dangerous, including drowsiness or sedation, constipation, nausea, itching, allergic reactions, problems with thinking clearly, slowing of my reactions, or slowing or cessation of my breathing, and possibly fatal overdose. Due to this risk of fatal overdose, the antidote naloxone (Narcan®) is available, without a prescription, at pharmacies.

- I understand that while taking these medications, it may not be safe for me to drive a car, operate machinery, or take care of other people. If I feel sedated, confused or otherwise impaired by these medications, I should not do things that would put other people at risk for being injured.
- I understand the risks and benefits associated with the use of controlled substances for the treatment of pain for greater than 30 days, including the risk of abuse, misuse, tolerance, dependence, and addiction.

**2. It is my responsibility to maintain compliance with my treatment plan.**

- I will keep, and be on time for, all scheduled appointments with my practitioner.
- I understand that prescriptions will only be provided scheduled office visits, and it is my responsibility to make sure that I have scheduled an appointment for refills (typically 30 days in advance). I understand that a minimum of a 5-7day notice may be necessary to get in for an appointment for medication refills. I will not call between appointments, at night, or on weekends to attempt to obtain refills.
- I understand that my medication is my responsibility and if it is lost or stolen, the medication will not be replaced until my next appointment and may not be replaced at all.
- I will treat the office staff respectfully at all times and I may be subject to discharge from the clinic if I am disrespectful to staff or disruptive to the care of others.
- If my treatment for pain goes beyond ninety (90) days, I realize that I will be required by Nevada law to complete an assessment regarding my risk of abuse, misuse, or diversion of the controlled substance.

**3. It is my responsibility to communicate important information to my practitioner.**

- I agree to inform my practitioner if I have ever taken a controlled substance in the past, and if it provided the intended effect. I will also inform my practitioner if I am ever given a prescription for a controlled substance by another provider, prior to filling or taking that medication.
- I will inform my practitioner if I use alcohol, marijuana, or any other illicit drugs.
- I will inform my practitioner if I have ever been treated for side effects or complications relating to the use of controlled substances.
- If I or anyone in my family has had problems with mental illness or with abuse or misuse of alcohol or other drugs, I will inform my practitioner, as this may put me at greater risk of developing an addiction. I will also inform my practitioner of any change in my health status, any new medications that have been prescribed, or any other circumstances which may impact my usage of a controlled substance.

**4. I understand that I am strictly prohibited from sharing the controlled substance with anyone or giving or selling the medication to any other person.**

**5. I understand that, as part of my treatment monitoring, periodic body fluid testing (urine, blood, saliva, etc.) may be required at the discretion of my practitioner. I will consent to such monitoring when deemed necessary by my practitioner.**

- I agree to come in to the clinic for such monitoring and testing within 24 hours of being contacted

## **WRITTEN INFORMED CONSENT FOR CONTROLLED SUBSTANCE THERAPY FOR PAIN**

Nevada law requires a patient's informed consent before a controlled substance can be initially prescribed to treat the patient's pain. I understand that attempting to reduce my pain is my responsibility, and that the treatment of pain with controlled substances carries with it some additional responsibilities that my practitioner has made me aware of. The purpose of this agreement is to help both me and my practitioner comply with the law.

**(Please sign below to indicate your understanding of all parts of this document.)**

**1. It is my responsibility to maintain compliance with my practitioner's treatment plan. This includes the responsibility of using the controlled substance properly, as prescribed, and taking the medication as directed.**

- I have discussed my treatment plan with my practitioner, **Innovative Pain Care Center: Dr. Daniel Burkhead, Dr. Wills Wu, Dr. Ryan West, Michael Scott, PA-C, Neil Jones, PA-C, Kelsee Chang, FNP-C, Tamara Browne, FNP-C**, and I have a good understanding of the overall treatment plan and goals of treatment. I may be given prescriptions for controlled substances; including opioids. My practitioner has discussed specific risks and benefits of these drugs as well as possible alternative treatments for my pain that do not include controlled substances and it is our mutual decision that a controlled substance may provide some benefit for the treatment of my pain.
- I understand how to properly use the controlled substance that is being prescribed, and I agree to take the medication as directed and to not deviate from the parameters of the prescription as written by my practitioner.
- When I take these medications, it may not be safe for me to drive a car, operate machinery, or take care of other people. If I feel sedated, confused or otherwise impaired by these medications, I should not do things that would put other people at risk for being injured.
- I understand my practitioner's protocol for addressing any requests for refills.
- If my treatment for pain goes beyond ninety (90) days, I realize that I will be required by Nevada law to complete an assessment regarding my risk of abuse, misuse, or diversion of the controlled substance.

**2. It is my responsibility to understand the risks and benefits of using a controlled substance, including the possibility of addiction.**

- There are potential risks and benefits associated with the use of controlled substances for the treatment of pain and I understand these risks and benefits regarding the medication that I've been prescribed.
- I may experience certain reactions or side effects that could be dangerous, including drowsiness or sedation, constipation, nausea, itching, allergic reactions, problems with thinking clearly, slowing of my reactions, or slowing or cessation of my breathing.
- Controlled substances also include a risk of tolerance, where my body may become accustomed to the original dosage of medication and this may require increased dosages to obtain the same effect. This is a situation that must be discussed with my practitioner, if it arises.
- I understand that I may become physically dependent on these controlled substances, creating a situation where I may experience withdrawal symptoms if I abruptly stop the medication. Withdrawal symptoms present as flu-like symptoms, nausea, vomiting, diarrhea, sweating, body aches, muscle cramps, runny nose, anxiety, and sleep disruption.

- I understand that there is a risk of addiction to controlled substances. If I cannot control my usage of the medication then I may be referred for addiction treatment.
- I understand controlled substances carry a risk of fatal overdose. If too much of the medication is taken, or if the medication is combined with other medications that may alter my level of consciousness (including alcohol and marijuana) this risk is increased.
- Due to the risk of possible fatal overdose resulting from the use of controlled substances, the opioid overdose antidote naloxone (Narcan®) is available, without a prescription, and I can obtain this medication from a pharmacist at any time.
- I have been made aware that there are controlled substances designed to deter abuse available to me and are risks and benefits associated with those drugs.

**3. It is my responsibility to communicate important information to my practitioner.**

If I or anyone in my family has had problems with mental illness or with abuse or misuse of alcohol or other drugs, I will inform my practitioner, as this may put me at greater risk of developing an addiction. I will also inform my practitioner of any change in my health status or any other circumstance which may impact my usage of medication.

**4. It is my responsibility to store and dispose of controlled substances in the appropriate manner.**

Prescriptions for controlled substances should always be stored in a secure place and out of the reach of children and other family members. To safely dispose of unused medications, I may return the medications to a local pharmacy, a local police station, a “drug-take back day” station, or I may safely dispose of them by dissolving them in a “Dettera” bag, which may be available for purchase at a pharmacy.

**5. For Women (ages 15-45):** It is my responsibility to tell my practitioner if I am or have reason to believe that I am pregnant or if I am thinking about getting pregnant during the course of my treatment with controlled substances, as there is risk to a fetus of exposure to controlled substances during pregnancy, including the risks of fetal dependency on the controlled substance and neonatal abstinence syndrome (withdrawal).

**6. For the Parent or Guardian of un-emancipated minor:** In addition to the above, there are risks that the minor may abuse or misuse the controlled substance or divert the controlled substance for use by another person and I have an understanding about ways to detect such abuse, misuse or diversion.

**I have read and understand each of the statements written above and have had an opportunity to have all my questions answered. By signing, I give my consent for the prescription of controlled substances to treat pain condition.**

## **PATIENT CARE AGREEMENT & ACKNOWLEDGEMENT**

### OF RECEIPT OF INNOVATIVE PAIN CARE CENTER'S NOTICE OF PRIVACY PRACTICES

"Pursuant to Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, and the Americans with Disability Act (ADA) of 1990 Innovative Pain Care Center does not discriminate in admissions, provisions of services, hiring and employment on the basis of race, color, national origin, sex, sexual orientation, gender identify, gender expression, religion, age or disability (including AIDS and related conditions)."

I look forward to working with you and hope that my staff and I can be successful in meeting your goals for your pain control. In striving to meet these goals, we all must adhere to certain standards.

**(Please initial the statements below to acknowledge your understanding.)**

\_\_\_\_\_ The Pain Center staff will treat you with respect and compassion, and we recognize that your time is important. In return, we ask that you respect our time by giving us at least 24 hours notice of cancellation of appointments. Failure to do so will incur a \$75 fee for missed office visits and a \$150 fee for missed procedures.

\_\_\_\_\_ Please note, patient co-pay, deductibles and co-insurance amounts are due at the time of service. Checks are not accepted at time of service.

\_\_\_\_\_ It is our policy that a \$75 fee is assessed for any returned checks.

\_\_\_\_\_ In order to avoid any unnecessary charges billed to the patient, we ask that you update us immediately with any information on changes of insurance, address, name or phone number.

I appreciate the fact that you've entrusted us with your care and hope that you have a pleasant and productive visit.

**Sincerely,**

**Daniel L. Burkhead, M.D.**

## **NOTICE TO ALL PATIENTS REGARDING URINE TESTING**

This office tests all patients randomly up to 12 times a year as part of our prescription monitoring program. As part of your narcotics agreement you have agreed to these tests. You should be prepared at every visit to provide a urine sample. If you are due for a urine screening, you will be asked prior to seeing your provider for the sample. If you are unable to provide a sample, you will be asked to wait in the waiting room until you are able to. If your test is inconsistent with your treatment plan, you may be required to provide a sample at every visit until you are in compliance. This is an additional charge to your office visit.

### **Urine tests for prescription monitoring are performed in two parts:**

- **Part one** is an in office urine test. This test is billed by our office. If you have any questions about your out-of-pocket responsibility for the test, please contact our billing office.
- **Part two** are specific studies performed by a contracted out-sourced laboratory, test are performed based on medications that are taken, as well as dosages, height and weight of the patient and the results of the in-office testing. These are billed by a laboratory within the contracted net-work of your insurance plan. If you have any questions about the laboratory portion of these tests, please contact your contracted laboratory facility.

### **These tests:**

- Prevent dangerous drug to drug interactions.
- Monitor compliance with your treatment plan.

I, \_\_\_\_\_, understand the above and agree to abide by the policies outlined in this agreement.

Dear Primary Care Provider / Referring Provider \_\_\_\_\_

This letter is intended to inform you of the ongoing pain management care of our mutual patient,  
\_\_\_\_\_.

This patient has been continuing treatment in our chronic pain management clinic. The treatment plan may consist of a combination of physical modalities, medication management, and interventional procedures, possibly including steroid injections. The rationale for continuation of these treatments involves the patient's preference to avoid surgery. If repeat steroid injections are employed, they will be repeated only if the patient has had a recurrence of pain in the same location that was previously relived with similar steroid injections for at least 3 months. It is our judgment that the benefits of additional steroid injections outweigh the risks of repeated steroid administration.

Please do not hesitate to contact our clinic with any questions.

Sincerely,

**Innovative Pain Care Center**

## **COVID-19 PANDEMIC TREATMENT CONSENT FORM**

Name \_\_\_\_\_ Date \_\_\_\_\_

As with the transmission of any communicable disease like a cold or the flu, you may be exposed to COVID-19, known as “Coronavirus,” at any time or place. Be assured that we, at Innovative Pain Care Center, have always followed state and federal regulations and recommended universal personal protection and disinfection protocols to limit transmission of all diseases in our offices and we continue to do so.

Despite our careful attention to sterilization, disinfection, and use of personal barriers, there is still a chance that you could be exposed to an illness in our office just as you might be at your gym, grocery store, or favorite restaurant. “Social distancing” nationwide has reduced the transmission of the Coronavirus. Although we have taken measures to provide social distancing in our practice, due to the nature of the medical evaluations and/or procedures that we provide, it may not be possible to maintain social distancing between the patients, medical providers, staff, and sometimes other patients, at all times.

COVID-19 virus has a long incubation period during which carriers of the virus may not show symptoms and might still be highly contagious. It is impossible to determine who has the virus and who doesn’t, given the current limitations in virus testing.

If you have been exposed to a communicable disease, you may spread the disease to the healthcare provider, staff, or other patients in the practice.

Although exposure to a communicable disease within our office is unlikely, by signing below, you accept the risk of possible exposure to disease within our office, and you consent to treatment here at our facility despite this possible risk.

You agree that if you begin to exhibit any symptoms of COVID-19, or if you are diagnosed with COVID-19 within a 30-day period either before or after you visit, you will contact our office immediately to report your illness or exposure so that we can take steps to limit the spread of this disease.

Your signature below provides attestation that the following statements are true:

- I have not felt hot or feverish in the past 14-21 days.
- I have not felt short of breath or had any difficulties breathing in the past 14-21 days.
- I have not developed a cough, sore throat, or runny nose within the past 14-21 days.
- I have not had any flu-like symptoms (gastrointestinal upset, headache, or fatigue) in the past 14-21 days.
- I have not experienced a loss of taste or smell in the past 14-21 days.
- I have not been in contact with any confirmed COVID-19 positive patient in the past 14-21 days.
- I have not traveled outside of the state of Nevada in the past 14-21 days.

I have read this form and I comprehend the information it contains. I agree with all of the above statements, and I understand the risks involved in being seen for a medical visit.

## **NOTICE OF PRIVACY PRACTICES**

AS REQUIRED BY THE PRIVACY REGULATIONS CREATED AS A RESULT OF THE HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT OF 1996 (HIPAA).

**THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU (AS A PATIENT OF THIS PRACTICE) MAY BE USED AND DISCLOSED, AND HOW YOU CAN GET ACCESS TO YOUR INDIVIDUALLY IDENTIFIABLE HEALTH INFORMATION.**

We must provide you with the following important information:

- How we may use and disclose your protected health information (PHI)
- Your privacy rights in your PHI
- Our obligations concerning the use and disclosure of your PHI

The terms of this notice apply to all records containing your personal information that are created or retained by our practice. We reserve the right to revise or amend this Notice of Privacy Practices as permitted by law. Any revision or amendment to this notice will be effective for all of your records that our practice has created or maintained in the past or that we may create or maintain in the future. Our practice will post a copy of our current Notice in a visible location at all times, and you may request a copy of our most current Notice at any time.

### **A. USES AND DISCLOSURES OF PHI**

The following section describes different ways that we use and disclose your health information. For each kind of use or disclosure, we will explain the meaning and give an example. Not every use or disclosure will be listed; however, we have listed all of the different ways we are permitted to use and disclose medical information. We will not use or disclose your medical information for any purpose not listed below without your specific written authorization. Any specific written authorization you provide may be revoked at any time by submitting the revocation to us in writing.

**1. Treatment:** We may use and disclose medical information in the course of your treatment in order to provide, coordinate, or manage your healthcare and any related services. This may include other providers, pharmacies or others who assist in your care, such as your spouse, children, parents or caretaker.

Example: Medical information may be sent to another provider of medical care that you have been referred to by our office for further treatment or testing. You will be informed by your provider or other office personnel of such a referral prior to any disclosure of information. Only the minimum necessary information will be provided.

**2. Payment:** We may use and disclose your PHI, including records, to obtain payment for services and products you may receive from us. This may include activities associated with authorization of services, eligibility and coverage or obtain payment by your health insurance plan or other third parties which are responsible for such payment or information.

Example: Treatment details or medical records may be provided to your health insurer to determine if your insurer will cover your treatment or to obtain payment for services previously rendered.

**3. Health Care Operations:** We may use and disclose your PHI to ensure accurate and appropriate business operations. These activities include, but are not limited to, quality assessment activities, employee review activities, or licensing.

Example: A sign-in sheet may be used at the registration desk where you will be asked to sign your name. Your name may be called in the waiting room when it is time for the provider to see you. We may also use and disclose your PHI to contact you to remind you of your appointment.

“Business associates” perform various activities (e.g. transcription or answering services) for us. We will share your PHI with business associates whenever appropriate. A written contract with the business associate will outline the terms that will protect the privacy of your PHI.

**4. Disclosures Required by Law:** Our practice will use and disclose your PHI when we are required to do so by federal, state or local law.

**5. Release of Information to Family/Friends:** Our practice may release your PHI to a friend or family member that is involved in your care or who assists in taking care of you.

Example: A patient, including a parent or guardian of a minor, may ask that a family member go to the pharmacy and pick up a prescription. In this example, that family member may have access to the patient’s medical information.

## **B. ADDITIONAL USES AND DISCLOSURES THAT MAY BE MADE WITH YOUR CONSENT, AUTHORIZATION OR OPPORTUNITY TO OBJECT**

We may use and disclose your PHI in the following instances. You have the opportunity to agree or object to all or part of your PHI being used or disclosed for these purposes. If you are not able to agree or object, the provider will, using professional judgment, determine whether the use is in your best interest. In any event, only the PHI that is relevant to your health care will be disclosed.

**1. Emergencies:** We may use or disclose your PHI in an emergency treatment situation. If this happens, your provider will try to obtain your consent as soon as reasonably practicable after the delivery of treatment. If your provider is required by law to treat you and the provider has attempted to obtain your consent but is unable, he or she may still use your PHI to treat you.

**2. Others Involved in Your Healthcare:** Unless you object, we may disclose to a member of your family, a relative, a close friend or any other person you identify or that may be responsible for your care, your PHI that directly relates to that person's involvement in your health care. If you are unable to object to such a disclosure, we may disclose such information if we determine that it is in your best interest. We may use or disclose your PHI to an authorized public or private entity to assist and coordinate uses and disclosures to family or other individuals involved in your health care.

**3. Communication Barriers:** We may use and disclose your PHI if your provider attempts to obtain your consent but is unable to do so due to substantial communication barriers and the provider determines, using professional judgment, that you intend to under the circumstances.

### **C. ADDITIONAL USES AND DISCLOSURES THAT MAY BE MADE WITHOUT YOUR CONSENT, AUTHORIZATION OR OPPORTUNITY TO OBJECT**

**1. Public Health:** Our practice may disclose your PHI to public health authorities that are authorized by law to collect information for the purpose of:

- maintaining vital records, such as births and deaths
- reporting child abuse or neglect
- preventing or controlling disease, injury or disability
- notifying a person regarding potential exposure to a communicable disease
- notifying a person regarding a potential risk for spreading or contracting a disease or condition
- reporting reactions to drugs or problems with products or devices
- notifying individuals if a product or device they may be using has been recalled
- notifying appropriate government agency(ies) and authority (ies) regarding the potential abuse or neglect of an adult patient, including domestic violence. However, we will only disclose this information if the patient agrees or we are required or authorized by law to disclose this information
- notifying your employer under limited circumstances related primarily to workplace injury or illness or medical surveillance

**2. Health Oversight:** We may use or disclose PHI to a health oversight agency for activities authorized by law. Oversight activities can include investigations, inspections, audits, surveys, licensure and disciplinary actions; civil, administrative, and criminal procedures or actions; or other activities necessary for the government to monitor government programs, compliance with civil rights laws and the health care system in general.

**3. Required by Law:** We may use or disclose PHI to the extent required by law. The use or disclosure will be limited to the relevant requirements of the law. You will be notified, as required by law, of any such uses or disclosures.

**4. Legal Proceedings:** We may disclose PHI in the course of any judicial or administrative proceeding, in response to a court or administrative order, discovery request, subpoena, or other lawful process by another third party involved in the dispute.

**5. Law Enforcement:** We may disclose PHI, so long as applicable legal requirements are met, for law enforcement purposes including:

- legal processes and otherwise required by law
- limited information requests for identification and location purposes
- pertaining to victims of crime
- suspicion that death has occurred as a result of criminal conduct
- in the event that a crime occurs on the premises of the practice, and
- medical emergency (not on the practice's premises) and it is likely that a crime has occurred.

**6. Abuse or Neglect:** We may disclose your PHI to a public health authority, government entity or agency authorized to receive such information if we believe that you have been a victim of abuse, neglect or domestic violence. In this case, the disclosure will be made consistent with the requirements of applicable federal and state laws.

**7. Coroners, Funeral Directors, and Organ Donation:** We may disclose PHI to a coroner or medical examiner for identification purposes, determining cause of death or for other duties authorized by law. We may also disclose information to a funeral director, as authorized by law, in order to permit the director to carry out their duties. We may disclose such information in reasonable anticipation of death. PHI may be used and disclosed for cadaveric organ, eye or tissue donation purposes.

**8. Food and Drug Administration:** We may disclose your PHI to a Food and Drug Administration authorized person or company to report adverse events, product defects or Problems; biologic product deviations; track products; to enable product recalls; to make repairs or replacements; or, to conduct post marketing surveillance, as required.

**9. Military Activity and National Security:** When appropriate conditions apply, we may use or disclose PHI of individuals who are Armed Forces personnel (1) for activities deemed necessary by appropriate command authorities; (2) for purpose of determination by the Department of Veteran Affairs of your eligibility for benefits, or (3) to foreign military authority if you are a member of that foreign military service. We may also disclose your PHI to authorized federal officials for conducting national security and intelligence activities, including for the provision of protective services to the President or others legally authorized.

**10. Required Uses and Disclosures:** Under the law, we must make disclosures to you and when required by the Secretary of the Department of Health and Human Services to investigate or determine our compliance with requirements of this notice.

#### **D. YOUR RIGHTS REGARDING YOUR PHI**

You have the following rights regarding the PHI that we maintain about you:

**1. Confidential Communications:** You have the right to request that our practice communicate with you about your health related issues in particular manner or at a certain location. For example, you may ask that we contact you at home, but not leave a message on the answering machine. We will accommodate reasonable requests. We will not request an explanation from you as to the basis for the request. Please make this request in writing to our Privacy Contact whose name is listed elsewhere in this Notice.

**2. Request Restrictions of your PHI:** This means you may ask us not to use or disclose any part of your PHI for the purposes of treatment, payment or healthcare operations (TPO). You may also request that any part of your PHI not be disclosed to family members or friends who may be involved in your care or for notification purposes as described in this Notice. You must make your request in writing to the Privacy Contact listed elsewhere in this notice. You must include (a) the information you wish restricted; (b) whether you are requesting to limit our use, disclosure or both; and, (c) to whom you want the limits to apply.

Your provider is not required to agree to a restriction. If your provider believes it is in your best interest to permit use and disclosure of your PHI, your PHI will not be restricted. If your provider does agree to the requested restriction, we may not use or disclose your PHI in violation of that restriction unless it is needed to provide emergency treatment.

**3. Inspect and Obtain Copy your PHI:** This means you may inspect and obtain a copy of PHI about you that is contained in your medical record. A medical record includes medical, billing and any other records used for making decisions about you.

Under federal law, however, you may not inspect or receive copy the following records: psychotherapy notes; information compiled in a reasonable anticipation of, or use in, a civil, criminal, or administrative action or proceeding, and PHI that is subject to law that prohibits access to PHI. In some circumstances, you may have a right to have this decision reviewed.

You may be required to submit your request in writing and a fee may be charged by the practice for the costs of copying, mailing, labor and supplies associated with your request.

**4. Request Amendments to your PHI:** This means you may request an amendment of PHI about you in your medical record for as long as we maintain it. The request must be in writing and submitted to the Privacy Contact listed elsewhere in this Notice. You must provide us with a reason that supports your request for an amendment. In certain cases, we may deny your request for an amendment. Including requests that are in our opinion are:

- accurate and complete;
- not part of the PHI kept by the practice;
- not part of the PHI which you would be permitted to inspect and copy; or are
- not created by our practice, unless the individual or entity who created the information is not available to amend the information.

If your request is denied, you have the right to file a statement of disagreement with us and we may prepare a rebuttal to your statement and will provide you with a copy of any such rebuttal.

**5. Request Accounting of Certain Disclosures of your PHI:** This right applies to disclosures for purposes other than treatment, payment or healthcare operations (TPO) as described in this Notice. You have the right to specific information regarding these disclosures that occurred after April 14, 2003. This accounting is a list of certain non-routine disclosures our practice has made, if any, of your PHI for non-TPO purposes. Use of your PHI as a part of the routine patient care in our practice is not required to be documented. In order to obtain an accounting of disclosures, you must submit your request in writing to the Privacy Contact listed elsewhere in this Notice and must state a time period, which may not be longer than six (6) years from the date of disclosure, and may not include dates prior to April 14, 2003.

The first list you request within a 12-month period is free of charge, but our practice may charge you for additional lists within the same 12-month period.

**6. To Obtain a Paper Copy of this Notice:** Upon request, even if you have agreed to accept this notice electronically, you have the right to obtain a paper copy.

**7. Complaints/Questions:** You may complain to us or to the Secretary of Health and Human Services if you believe your privacy rights have been violated. We will not retaliate against you for filing a complaint. For information about the complaint process, please contact the Privacy Contact listed elsewhere in this Notice.
